

Yong Cyun Huang

New Taipei City, Taiwan · +886-9-8312-2627 · littlechintw@gmail.com · littlechin.tw · github.com/littlechintw

Profile Summary

QA and Test Engineer with **2+ years of professional experience** across **test automation infrastructure**, **system-level debugging**, **cybersecurity penetration testing**, and **user experience (UI/UX) evaluation**. Proven track record in isolating complex software-hardware defects, participating in authorized government cyber drills, and leading tech community initiatives. Highly adaptable and eager to contribute to robust ecosystem quality.

Core Skills

Languages & Frameworks: Python, Node.js, JavaScript

Testing & Infrastructure: E2E, API, Regression Test, Test Plan Design, System Log Diagnosis, CI/CD, Docker, Git

Security & UX: Black-Box Penetration Testing, Vulnerability Assessment, UI/UX Evaluation

Professional Experience

CreatorDB

Taipei, Taiwan

QA Engineer

Oct 2025 – Present

- **Increased multi-service test coverage by 40%** by establishing the core QA process from scratch and architecting E2E and regression test automation infrastructures utilizing Docker and CI/CD pipelines.
- **Reduced testing cycle time by 30%** and accelerated production deployment pipelines by implementing asynchronous Python/Node.js automated testing scripts to enable rapid module-level defect tracking.
- **Conducted systematic exploratory testing** across complex production environments, proactively identifying and driving resolution for 10+ legacy critical system bugs.

HP Inc.

Taipei, Taiwan

Software/System Engineer

Mar 2024 – Sep 2025

Software Testing Intern

Jul 2022 – Jul 2023

- **Executed end-to-end testing** across frontend, backend, and notebook systems with a focus on log diagnosis and root-cause analysis.
- **Developed and deployed automation scripts** across large-scale UUT (Unit Under Test) environments, eliminating repetitive manual configurations and saving approximately 90% of operational setup time.
- **Established an environment isolation methodology** using tracking tools to resolve complex, intermittent system integration defects.

PDIS (Public Digital Innovation Space, Executive Yuan)

Taipei, Taiwan

UI/UX Researcher & Intern

Jul 2021 – Aug 2021

- **Conducted user-centric research and UI/UX evaluations** for national digital services, leveraging design-thinking methodologies to bridge complex engineering backends with intuitive user experiences.

State-Level Cyber Offensive & Defensive Exercises

Taiwan

Authorized Black-Box Penetration Testing Agent

2020 – 2023, 2025 – 2026

- **Executed authorized black-box penetration testing** for the Executive Yuan (Cyber Offensive and Defensive Exercise, 2020–2023) and Ministry of Education (2025–2026) to secure critical government and campus network infrastructures.

Community Leadership

SITCON & GDG Taipei (DevFest Taipei 2025)

Taipei, Taiwan

Photography Lead

2022, 2025

- **Led a volunteer photography team of 10+ members** to deliver comprehensive visual documentation and media workflows for large-scale technology conferences with over 1,000+ attendees.

GDG on Campus (Google Developer Groups)

National Taipei University, Taiwan

Community Lead

2021 – 2022

- **Established the inaugural chapter at National Taipei University** as part of the first-ever cohort in Taiwan; sustained a 1-year roadmap and successfully executed 5+ technical workshops to foster campus engagement.

Education

National Taipei University

New Taipei City, Taiwan

Bachelor of Science in Computer Science and Engineering

2019 – 2023

- **Leadership:** Served as Information Department Head for the Student Association.

- **Key Project:** Co-developed the NTPU Dormitory Reservation System in collaboration with university administration.
